

VULCAN ADVOCATE

A PAPER WITH ITS HAT IN THE RING ON THE FARMER'S SIDE

VOL. 7—No. 35.

THE VULCAN ADVOCATE, WEDNESDAY MARCH 24, 1920

Subscription \$1.50 per year.

If You Only Knew—

that twenty years from now you would still be living and in good health—

that you would be in a good financial position, then you might be able to do without insurance. But you cannot forecast even a day ahead and the only way you can do NOW what you plan to do if you LIVE is by taking Life Insurance. A comparatively small premium annually guarantees in case of death, at any time thereafter \$5,000, \$10,000 or more to your wife and family or estate.

The Canada Life Assurance Company—Canada's oldest and best—issues policies to suit every insurance need. Consider this before starting your season's work.

RAINMAKER NEWS

The following letter was received by Mr. Brown of the Imperial hotel from Harry Noel who has made investigations in regard to the Rainmaker which we reproduce as follows:

Dear Brown:

"A few lines to let you know that I am still in the land of the living."

"I spent five days at Crow's Landing and think there is something to the Hatfield rain, etc. Haven't come to any definite conclusion but the records of rainfall covering a period of twenty years show in his favor and his operations only cover two and three months of the year if he operated over the entire year there certainly would be an enormous difference. I am having him send contract to deliver us 8 inches of rain along these lines: First two inches, no charge to be made for same; then if we get another inch or along the following lines:

3 inches \$1,000.
4 inches \$1,000.
5 inches \$1,000.
6 inches \$1,000.
7 inches \$2,000.
8 inches \$2,000.

\$8,500

and no charge after that. I find after interviewing him it is always his effort to get \$10,000 for his demonstration, that would ensure twenty inches of rain, we don't want that much rain during May, June and July. If it doesn't suit the bunch they can pass it up and if he don't get the rain it won't cost us so much. Tell George Ecker I will be home before long and that Hatfield's time will be up on the 10th of April at present place Steveville, Alta., is after him and he is about to close a contract with them—first come will be first served.

"My arrangements with Hatfield is that we would place \$8,500 in the bank and a telegram from either of the managers to him he would come. He wants to start by the first of May but I want him to start about the 15th; that can be arranged later."

Yours truly,
HARRY.

GOVERNMENT EMPLOYMENT BUREAU

The following communication was received last week by Mr. A. M. Trail, manager of the Bank of Hamilton, which will be of interest to the farmers as well as the business men of this district:

Bank of Hamilton,
Vulcan, Alta.

"My Dear Sir:

Appreciating the fact that the managers of the various banks located in the province of Alberta as being in close touch with the business man and farmer, and the possibility of their wants being made known to the bank manager, may I ask for your kind assistance in suggesting, should opportunity offer, to the business man and farmer that should they be requiring help in their business or on their farms that the Alberta Government Employment Bureaux are thoroughly organized to supply the required help, and their orders are solicited and will receive prompt attention.

"Bureaux are operating in Calgary, Edmonton, Lethbridge, Medicine Hat, Red Deer, Drumheller, Vermillion, Macleod, and the superintendents of the bureau at either of the above mentioned points will appreciate any inquiries your clients may wish to make, and personally your co-operation will be thankfully received in an effort to be of the greatest assistance possible in furnishing help for the commercial advancement of the province.

"The service of the bureau is absolutely free.

Thanking you in anticipation,
Your very sincerely,
J. W. MITCHELL,
Director Government Employment Bureaux.

CARD OF THANKS

We desire through the columns of the Advocate to express our most sincere thanks to the friends and neighbors for the kindness and sympathy shown, and especially for the floral offerings during the illness and death of our beloved daughter.

Mr. and Mrs. T. R. Farrand and family.

VULCAN NEWS ITEMS

Corporal Allen, A.P.P., was a business visitor to Edmonton last week.

Mr. W. Clappison, of Rosedale, was a visitor in town over the week-end.

Miss Porter and Miss Carruthers, of the telephone staff, spent the week-end in Calgary.

Mr. C. E. Henry returned Sunday evening last from a week's visit at Calgary and Strathmore.

T. R. Farrand left Friday night for Carbon, Alberta, where he is arranging for a business opening.

The combination auction sale put on by Shimp & Rebbe last Saturday was well attended and realized about \$1000.

Mr. S. H. Daines, assistant station agent at Wayne, Alta., spent the week-end with his parents here, Mr. and Mrs. H. Daines.

C. J. Carr, late of the R.N.W.M.P. and well known in this district before going overseas, has joined the Alberta Provincial Police and is now stationed at Edmonton.

Born, to Mr. and Mrs. Fred Cleaver, of Champion, a boy.

Born to Mr. and Mrs. James Hampton, of Vulcan, a boy.

Mr. Sarah Green, of Reid Hill, who has been visiting in Vulcan and district, returned to her home last Friday.

Jack Wolfe has just unloaded a car load of Chevrolet cars, latest models, which are on exhibition at his garage.

The McNaughton cup still remains at Carmangay owing to poor ice, but we understand the Vulcan bunch cleaned up Carmangay at rummy which more than paid expenses of the trip.

Don't forget the auction sale, at rear of Vulcan Livery, on Saturday, March 27, at 1 p.m., at which time horses, machinery, household furniture, books, tools and numerous other articles will be sold. Entries solicited up to 12 o'clock noon, day of the sale. 7 1/2 per cent commission charged. Shimp & Rebbe, phone 48 or 26.

Miss Davidson, Public Health Nurse, will be in Vulcan for the next two or three weeks in her professional capacity inspecting the health of the school children. In this work Miss Davidson should have the hearty cooperation of the members of the school board and all parents in the town and district.

Dr. W. H. MacPherson, who has been at the National School of Chiropractic, Chicago, the past two months, writes us stating that he has about finished his studies at that institution and expects to return to Vulcan in about two weeks to resume his practice.

His subscription being due, a well known farmer of the district called in our office Saturday to renew. During the course of the conversation he remarked that he had recently been weeding out the good and indifferent papers he subscribed to and stopping the indifferent ones. Among the good ones he still continues is the Advocate which is a compliment we greatly appreciate.

While Messrs. A. J. Flood and R. E. House were returning from the Secretaries Convention at Calgary, Mr. Flood looked out of the train window and saw a veritable lake on a farm that he had assessed the week before at \$40 per acre. He expected he would have to re-assess as the farm was no longer a farm but a lake.

Messrs. E. B. Sherwin, J. R. Nevins, E. J. Carter, O. O. Young, E. B. Favre, of Spokane, and F. J. McCurdy, of Seattle, and R. R. Stoner, of Minneapolis, members of one of the largest loan companies in the States, were in Vulcan for the week-end in connection with a large loan which was put through for Mr. Noble, of Nobleford.

There was a large attendance at the Community Theatre on Saturday night when Harry Carey in "A Fight for Love" was the offering. The picture was a very good one and was enjoyed by all present. On Thursday, "The Great Game" will be shown featuring Bombadier Wells, the well-known English boxer.

Mr. and Mrs. A. D. Mitchell are expected back this week after spending the winter months in Indiana.

Mr. E. M. Hollister, of Calgary, was a Vulcan visitor last week.

Mrs. Oliver Anderson left last week for Montana where she will join her husband.

Mrs. Jack Marshall, who attended the Womens Institute Convention at Edmonton as delegate from Vulcan, returned on Saturday.

C. E. Colwell was a Calgary visitor on Tuesday.

J. R. Branson has bought a section of land near Blackie from Mr. Bucher, and the family have moved to their new home.

Mr. and Mrs. Claude Terwilliger, of Calgary, were visitors in town over the week-end.

Mr. Chas. Clark, of High River, proprietor of this paper, was a visitor on Friday on business.

Farmers requiring any turning done should remember that there is a lathe at the Chevrolet station. Give them a trial.

Mr. H. Marcellus spent a few days in Calgary last week returning on Monday.

Mr. and Mrs. H. Nelson Johnston have returned to Sylvan Lake after attending the funeral of Mrs. Marcellus.

Among the new subscribers received this week is one for one year from Mr. Lester R. Earp, a former resident of this town but now of Goldstone, Montana. News of the old home town still seems good to Mr. Earp.

C. B. Shimp has just returned from Cluny, Alberta, where he made arrangements for an auction sale of the late Gordon Stuart's goods, to be held March 31, at 12 o'clock noon. See ad in this issue.

Mr. A. J. Ober has received word from "Cap" that they are nicely located in a small town near Couer De Alene, Idaho, and has a good position. They like the country and climate fine and haven't had a single row to date.

Mr. J. J. Duffield, who has been associated with the Advocate for some time, has accepted the position of managing editor of the Advocate in succession to Mr. Ganoe, who will engage in some other line of work in the town.

Saturday last was an exceedingly busy day for the merchants. Taking advantage of the beautiful day an exceptionally large number of farmers were in town making their purchases and transacting other business in preparation for their spring work.

Mr. William Ironman, of Hillcrest, was visiting his cousin, Corporal Allen for two or three days last week. Mr. Ironman is sailing on the 29th of this month for N.S.W., Australia where he will visit relatives and probably make his home.

The members of the Women's Institute entertained at the home of Mrs. Jennie Johnson on Monday evening. Each member brought a lady friend and the evening was spent at progressive whist. Mrs. Robert Marshall carried off the prize—a box of home made candy and Mrs. Lawrence secured the booby prize. There were forty-eight members and friends present and a very enjoyable time was had.

A real estate deal was put through on Monday when Mr. H. Daines purchased the residence of Mr. Wm. Clappison. The price paid was good and very remunerative for the late owner. We hope that the new owner will have many happy hours in his new home. Mr. Daines will take immediate possession.

The Vulcan band minstrels hold their first show of the season on Friday, March 26, and those who attend are promised a good time by this talented aggregation. The program will compose all the latest songs, jokes, comic sketches, etc., which will keep you laughing from the rise to the fall of the curtain. Don't forget to patronize the boys and boost the band.

The town of Taber is expecting a building boom. There is a shortage of houses in every town in the province.

BUSINESS CHANGE

Mr. H. W. Reeves disposed of his stock of dry goods last week to R. Thomas & Co., who will in future carry on the business in this particular line. The new firm will open up for business on Saturday, March 27 with an entirely new stock of dry goods purchased in the east. In the meantime the store is undergoing extensive alterations and when completed will equal any up-to-date city store for the convenience of customers and well assorted goods of fine quality.

By dealing at this store the people of town and district will be assured of getting the very best service and goods that money can buy as it will be personally managed by Mr. Thomas who is not a stranger here, having been connected with H. W. Reeves' store in 1916.

Since leaving Vulcan he has been in the dry goods business at Blairmore, from which town he returns to renew your acquaintance. You are especially invited to call and look around the store on opening day and any future occasion when you are in need of anything in this line of business. Don't forget the opening date, Saturday, March 27.

BAZAAR AND BALL

The bazaar held by the Rebekahs on Friday afternoon last in the L.O.O.F. hall was a very successful event, both financially and otherwise. The several stalls were tastefully decorated and those assigned to display the culinary art of the ladies of town and district were very tempting and appetizing. In other stalls were displayed fancy work, etc. Altogether it was a very pleasing array of tempting articles which were readily purchased by the large number of people in attendance and the nice sum of \$61.75 was realized.

In the evening a dance was held which was not as successful as it might have been, owing, no doubt, to the bad condition of the roads which prevented people from the country attending. However, about one hundred people enjoyed themselves thoroughly until about two a.m., when the gathering dispersed, tired but happy.

COURT NEWS

Nels Johnson appeared before H. Cooper, J.P. at Champion on Friday, March 19, charged under section 77 of the Alberta Liquor Act with being intoxicated in a public place and was ordered to pay a fine and costs.

E. McCumber, Albert Hogan and S. C. Milliken were arrested at Champion on the 19th inst. by Corporal Allen of the local detachment, Alberta Provincial Police, charged under section 21 of the Alberta Liquor Act. The accused were caught with the goods, and upon being arraigned before Magistrate Cooper, all three pleaded guilty. McCumber and Hogan were fined \$50 and costs each, and Milliken was fined \$25 and costs.

AN INTERESTING LECTURE

Miss Davidson, Public Health Nurse, who is in Vulcan doing health inspection of the school children, will give an address on "Health Inspection and the Duty of the Community to the Child," on Monday evening, March 29th, in the Vulcan Church.

As this is of vital interest to the parents, it is hoped that every person will make it a point to be present to meet Miss Davidson and hear what she has to say.

There will also be a meeting some Saturday, date to be announced later, at the school house when mothers may bring children of pre-school age to be examined by Miss Davidson and receive a talk on child welfare.

Robins and wild geese have been noted in large numbers at Nelson this week. Four passed right over this town last Saturday morning.

On Tuesday of this week, Mrs. William Clappison accompanied by her son and daughter, Jack and Nancy, left Vulcan for Rosedale where they will reside in future. Since coming to this town four years ago they have made many friends who are sorry to see them leave and their best wishes for the future prosperity of this estimable family go with them. Miss Mary Clappison, who holds a position in the telephone office, will remain here.

Prunes in Gallon Tins

We have this week Prepared Prunes ready to serve, in sealed gallon tins. These are large, juicy prunes, with their original flavor, well preserved and are exceptionally tasty, per gallon tin **\$1.95**

THE PROGRESSIVE TOWN

Progressive, up-to-date towns have a clear conception of what makes a community attractive to its people. Farmers drive miles out of their way to trade at such towns. Live towns see to it that an attractive market is always maintained for everything the former produces. Merchants have attractive stores and good quality standard brands of merchandise at fair prices. They show by their actions that they appreciate the trade that comes to their stores and their towns.

A community is just what the people of the town and the people of the country choose to make it. If the town people are selfish and unfriendly to the country people; if the people on the farms are selfish and feel that they are independent of the town, an invisible line will be stretched between the people of the town and the country. The result will be a starved out community life.

Progress demands that there be no factions. Progress demands a unity of action or pull-together to put over some big, important project that will benefit the community as a whole. Community co-operation will make your town and your country what you want and your community should be.

Mr. Citizen, do more than live here. Be a citizen in every sense of the word. Some citizens have given freely of their time in service for the good of the town and community. You cannot always let the other fellow do it. Your turn is NOW.

GREAT PUBLICITY

The London Times of February 21 contains about as fine a bit of publicity for Alberta as could be desired. It is an article from the paper's agricultural correspondent on "The E.P. Ranch," as that being established by the Prince of Wales near High River has been designated. As the home of a herd of pure-bred shorthorns of the boveing type, the ranch, in the opinion of this expert, should be of incalculable value to the business of stock breeding in Western Canada. The direct results of the enterprise in improving the strains of the province's cattle must be very great. But they are not to be compared in importance to the indirect consequences. The opportunities which Alberta offers to those engaged in the live stock industry, could not have been brought home to the British public in any other way so effectively as by the heir-apparent's undertaking.

"MY GOVERNMENT"

Mr. Musselman in his address to the Grain Growers gave utterance to a sentiment which The Post has previously expressed on its own behalf, and which will bear frequent repetition, until it becomes a habit of thought on the part of the whole world. In Mr. Musselman's words, the point is this: "The government of my country is my government, and therefore entitled to my allegiance and my reasonable co-operation to make the business of the country run successfully under its administration quite without regard to whether I voted for or against it or to my determination to supplant it with a better at the first opportunity."—Regina Post.

COAL OUTPUT FOR 1919

Alberta's coal production for 1919 is likely to reach a total of about 4,700,000 tons, it is estimated by experts. The complete figures will not be in hand for some time yet. It will represent a falling off, as compared with 1918, of some 1,000,000 tons, accounted for by the fact that for four months of the year the mines of the province were idle because of a general strike. The output will be about the same as in 1917. Three hundred mines have been operated this year, including a number of new ones opened up in different parts of the mining field. Most of these mines are now in good running order, it is stated, the effects of the strike having been largely overcome.

The federal government term of office expires in February 1923.

EDITORIAL COMMENTS

Silver metal has gone through some of the most startling transformations of any commodity on the market since 1913. Mining camps that had been abandoned have been reopened and producers of the white metal who were in despair five or six years ago have taken a new lease of life. It's only another case of supply and demand.

Life, of New York, says about the British: The British were thoroughly tried out during the war and they were game throughout. The people of the great outstanding, English speaking, self governing Dominions are nearest to us as the war showed, in attitudes of mind and habits of thought, of any people on the earth. It becomes us to search our own hearts a bit to discover whether enough nonsense has yet been knocked out of us to make us good enough for them.

In the report handed in by the deputy minister of education for Alberta, reference was made to the work that was being done among the Mennonites in the northern part of Alberta. "The majority of teachers were returned soldiers who had tact and experience in teaching and those men won the esteem and confidence of the community by their enthusiastic work and manly attitude as residents of the colony. Inspectors and teachers have reported favorably on the general attitude of these people toward public schools, and on the rapid progress which is being made by their children in all their studies."

The average citizen will welcome a change of administration in federal and provincial parliaments if they will be assured of a more economical system being established. At present we have hosts of government employees who could very easily be dispensed with, and this alone would help to reduce the cost of administration, besides placing the non-producing in a position to produce something for the country.

The women of Taber, Alberta, are arranging already for a flower show to be held in the summer.

Last year there were 7,159 head of cattle shipped from the Lethbridge district to the United States valued at \$854,512. Another large export from the southern part of the province was wool; 854,179 pounds, worth \$615,544 being shipped over.

A special report to the Financial Times shows that in the year 1919, Canada purchased upwards of \$700,000,000 worth of goods from the United States. Of this amount, essentials represented a value of less than \$200,000,000.

Important Notice!

Department of Finance

Dominion of Canada

Your Income Tax Return Should be Filed at Once!!

All persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:

Every unmarried person, or widow, or widower, without dependents as defined by the Act, who during calendar year, 1919, received or earned \$1,000 or more.

All other individuals, who during calendar year received or earned \$2,000 or more.

Every corporation and joint stock company, whose profits exceeded \$2,000 during the fiscal year ended in 1919.

CLASS 1

Forms to be used in filing returns on or before the 31st of March, 1920.

Trustees, executors, administrators, agents and assignees must use Form T 3.

Employers making a return of the names and amounts paid to all directors, officials, agents or other employees must use Form T 4.

Corporations and Joint Stock companies making a return of all dividends and bonuses paid to shareholders and members during 1919, must use Form T 5.

NOTE.—Individuals comprising partnership must file returns in their individual capacity on Form T 1 or T 1 A.

PENALTY

Every person who is required to make this return, who fails to do so within the time limited, shall be subject to a penalty of \$10.00 for each day during which the default continues—and all such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are assessed and collected.

Time Limit

All persons in Class 1, as shown hereon, must file on or before the 31st of March, 1920.

All persons in Class 2, as shown hereon, must file on or before the 30th of April, 1920.

General Instructions

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation, or from Postmasters.

Read carefully all instructions on Form before filling it in.

Pre-pay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly, and avoid penalties

CLASS 2

Forms to be used in filing returns on or before the 30th of April, 1920.

All individuals other than farmers and ranchers must use Form T 1.

Farmers and ranchers must use Form T 1 A.

Corporations and Joint Stock companies must use Form T 2.

PENALTY

Every person required to make a return, who fails to do so within the time limited, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provisions of the Act, shall be liable on summary conviction to a penalty of \$100.00 for each day during which the default continues. Also that any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

Address of Inspector of Taxation for this District:

CALGARY, ALTA.

R. W. BREADNER, Commissioner of Taxation.

Fire Chief Smart of Calgary has been presented with his old driving horse. The animal is 24 years old and is now past active service. When it was suggested that it be shot, Chief Smart raised an objection. He had driven it for 15 years.

There are one hundred and five thousand returned men engaged in civil employment with the Federal government.

Great guns of British dreadnoughts command both sides of the Bosphorous and Constantinople is occupied by Allied troops. It's about time.

England's tobacco bill for the year is in excess of two hundred and fifty million dollars.

A revolution has broken out in Germany and for a time the military party held sway, but they are now losing ground and influence by the stand taken by the Socialists.

COWBOY SPORTS AT SPRING HORSE SHOW

An added attraction in the form of some real cowboy sports will be one of the new features of the 1920 Spring Horse Show to be held in Calgary on March 23 to 27. This addition to the regular horse show programme will be presented every evening of the show and on Saturday afternoon under the direction of Guy Weadick, who has brought some of his well known bucking horses that created so much comment at the stampede held in Calgary last August, of which he was manager.

Miss Flores J.A. Due, the world's champion lady fancy roper, well remembered for her performances at the stampede of 1912 as well as the one of last year, will give exhibitions of her roping. Strawberry Red Wolf, the broncho buster who made so many friends in Calgary and was the talk of the stampede by his dare-devil feats of horsemanship, will also be prominent in the bucking horse riding exhibitions.

Some real riding and plenty of excitement is promised in this portion of the Spring Horse Show.

BIG REVENUE FROM LAND TAX

The following interesting figures were presented by the provincial treasurer, Mr. Mitchell, in the House last week, of monies received from supplementary revenue and wild land taxes. The total amount collected by the government by the supplementary revenue tax in 1918 was \$640,716.21, and in 1919, \$1,014,222.43. The total amount still uncollected but due under this tax for 1918 is \$767,777.76, and for 1919, \$1,177,707.27. In 1918 the government collected \$429,688.22 under the wild land tax, and there is still uncollected but due for that year the sum of \$1,220,845.25. In 1919 the government collected under the wild land tax \$713,148.43, and there is still uncollected for that year the sum of \$807,292.79.

WHY OIL IS GOING UP

Some of John D. Rockefeller's money will probably help to make Alberta doctors in the future. A portion of the \$100,000,000 devoted by the oil magnate to the encouragement of medical education is coming this way, according to present indications. D. H. M. Tory has just returned from a few days' trip to Winnipeg, where, in company with representatives of other western universities, he met Dr. Vincent, of the Rockefeller foundation, and talked over the question of the expected grant. Out of the total amount \$5,000,000 is to be available for Canada, and the University of Alberta will come in for its share.

Farmers are receiving 50c per lb. for butter and 40 cents for eggs per doz.

HOSPITAL MEETING AT BLACKIE

Owing to the bad condition of the roads many people were unavoidably detained from attending the hospital meeting at Blackie on Monday afternoon, when Mr. MacKay, the provincial organizer gave a clear outline of the Municipal Hospital Act. The meeting was held in the council rooms and Mr. Sam Brown was elected to the chair. With a few brief remarks the chairman introduced the speaker, explaining that the province had in Mr. MacKay a man who was heart and soul with his work.

Mr. MacKay in reply said he was glad to speak to the people of Blackie for he knew they were vitally interested. They were in the peculiar position of not having a resident doctor and did not have a hospital in their village. He knew of their desire to have such an institution in the village, but he held no hope for them that Blackie would get the large hospital for they were too close to the southern boundary of the Calgary area to permit of this. He recommended that they come in with the High River or Calgary hospital districts. There were eleven hospital districts in operation in the province and he was proud to learn that High River hospital was out of debt which he claimed was a tribute to the people of the community in giving such support to the hospital. A hospital should be like our schools, supported by a fair and equitable tax of the people as a whole. The province of Alberta has more advanced legislation than any other province in the Dominion. Hitherto our governments were inclined to pay more attention to the protection of live stock than to the human specie with the result that the country has suffered greatly as a result. To conserve human life, money has to be expended, and in the erection of large hospital districts throughout the province the speaker thought the people would get better results at a cost that would not bear heavily on the average ratepayer.

Messrs. Robt. Wilkinson, O. W. Bowls, J. Steirs, E. J. Wheeler and others interrogated the speaker with regards to certain points in connection with the establishment of the hospital area, both as regards extent of area, the possible tax rate, etc., and answers were given that appeared satisfactory to all. Unfortunately we cannot give a detailed account of the meeting, but at the close, the people of Blackie expressed by resolution their approval of the boundaries of the rural hospital district as outlined last year.

ALBERTA'S CHEAP AND PRODUCTIVE FARM LABOR

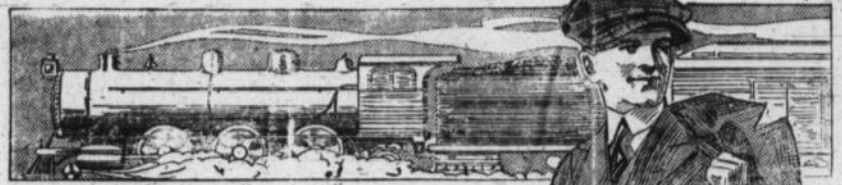

Farm land in Alberta, according to the Dominion bureau of statistics, increased in value from \$21 per acre in 1914 to \$29 in 1919. Nevertheless, it is still the cheapest land in the Dominion, as the bureau's statistics also show. This means that it is the cheapest on the North American continent.

With this in view, as well as the record of our agricultural production in the nearly fifteen years since the province came into existence, no one can be in doubt as to its attractiveness as a field of settlement in the immediate future. Considering the actual returns from Alberta soil, and comparing these with the returns from what is much higher-priced, we can only express surprise that the movement in this direction has not been more rapid.

WHAT IS THE LABEL FOR?

In the first place it is to help the postal service to deliver the paper to the right party. In the next place it informs the subscriber as to how his subscription stands, whether paid in advance or in arrears. It's a receipt for money paid, or a reminder of money that should be paid. Look at your label and see how you stand with the publisher. The month indicates that you are paid till the end of that month, unless otherwise indicated. The figures after the month indicate the year to which the subscription is paid—1919, 1920, 1921, 1922, mostly indicated by 19, 20, 21, 22, as the case may be.

During the past ten years we have accustomed ourselves to thinking of the wonderful resources and possibilities of this district, which is all very well and good, but unless our energy and our brains are working to find commercial values for these marvelous gifts of nature which we all know exists here, they are of little value to us. Every citizen should awake to their responsibility and take more interest in public matters. There is too much disposition to enjoy ourselves and let somebody else do the work. There is work for all to perform whether it be in connection with civic matters, agricultural society or the auto club.

Six Chinamen in the town of Nanton were arrested there by the provincial police recently and fined on a charge of smoking opium. The six Chinamen admitted their guilt, but no trace could be found of the supply of opium and the Chinamen would not reveal the whereabouts of same.

Easter Sunday, April 4.

Two lives were lost in Calgary on Tuesday morning when an explosion occurred at the Air Liquid Company's plant. The building was entirely demolished by the force of the explosion.

The first number of Macleod's new paper, The Times, has appeared and it bears a very prosperous appearance, containing a very liberal share of advertising patronage from the business men of the town. The subscription rates are \$2 and \$2.50, and display advertising rates are 35 cents per inch, which will enable the proprietor to meet present-day prices in printing necessities.

Good Friday, April 2.

Harry Streeter, of Mazeppa, appeared before Magistrate A. Y. McCorquodale on Thursday last on a charge of moving cattle more than five miles without the owner's consent. It appears his riders were moving stock from the Nanton district to Mazeppa, and while en route, other cattle joined the herd and were driven to Mazeppa. The law provides that in such cases when strays are picked up along the road they must be taken to the nearest corral and cut out from the herd and returned to the place where they were picked up. Being the first offence he was fined the costs of the court.

A Successful Canvasser

In a manufacturing town in Ontario a canvasser for the Forward Movement tackled a chap in one of the factories, and the following dialogue ensued:

Canvasser:—"Say, how much are you going to give to the Forward Movement?"

Factory Hand:—"I'll not give you a cent."

Canvasser:—"Look here! You have several children, haven't you?"

Factory Hand:—"Yes, I have."

Canvasser:—"Well, suppose something should happen to you, who in hell is going to pay for the religious instruction of your children? Do you expect me to do it? If so, you are making a damn big mistake."

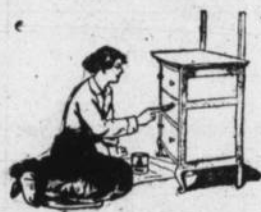

The canvasser turned on his heel, and was walking out when the factory hand called him back and signed his name for \$25. He was converted by the lucidity and "luridity" of the canvasser's argument.

After standing Germany on her head the allies propose to put her on her feet with a loan.

Vulcan Supply Co.
Hardware, Harness, Implements

MUST ERADICATE MANGE

The Cattlemen's Protective Association concede that the United States has a right to do anything they may deem necessary to protect her herds against disease, just as we would insist that the Canadian government should do so to protect the herds on this side of the border," remarked W. F. Stevens, the secretary of the association, recently. "They do not ask that it be made easy to ship diseased cattle across the line, but that our herds be made so free from disease that they will find easy access into the United States market under the side of the border regulations whatever they may be. It is not so much lax regulations on the United States side as a high standard of health on this side of the border that the association is striving for. By this means the live stock industry of both countries will be placed on a high plane."

Mr. Stevens stated that in view of the refusal of Great Britain to admit cattle from any country except for immediate slaughter, that the United States market was of enormous value to Canadian cattlemen, as was strikingly put by D. P. McDaniel, president of the association, and published in provincial papers the other day, and Mr. Stevens said they should do nothing to jeopardize it.

"We must remember that the United States producer of feeder cattle," said Mr. Stevens, "is jealous of the favor which Canadian cattle find in the eyes of the corn belt farmers of Iowa and Illinois, just as we would be were the conditions reversed and he is anxious to find some excuse for demanding their exclusion, but does not want to disclose the real reason, hence he is watching for the opportunity of raising the cry of disease."

"It is, therefore, doubly important that Canadians should be exceedingly careful not to supply him with the reason he is looking for. If we do, the United States government will have to give heed to his demands for protection just as the British government has had to do for its farmers."

"Clean-up" is the slogan of the Cattlemen's Protective Association," said Mr. Stevens. "Assist, and don't knock the inspector when he tries to make the work thorough and effective although he may appear at times to be 'pernickety,' but expose every instance in which he becomes careless, displays favoritism, or goes to stance in which he becomes careless, displays favoritism, or goes to sleep at the vat. Mange can and must be eradicated in western Canada."

The Cattlemen's Protective Association have undertaken to do it this year. It would require much extra effort, some sacrifice and expense, and a great deal of patience; but it can be done and it is worth the price.

"If the cattlemen succeed, they will benefit not only the stockmen of the range area, but those outside the area as well. They will remove a cause of much friction between the veterinary department of Canada and the United States, and they will take away the last vestige of argument against the admission of Canadian cattle into the mother country."

SHORT CHICKEN SEASON

The chicken shooter who revelled in six weeks of hunting these birds last year through an inadvertent misprint in the Game Act, will have to be content with only two weeks of shooting this season according to amendments to the Game Act brought down in the house. The 1920 season will be from October 15 to November 1, two weeks. Two years ago the chicken or grouse and partridge shooting season was for the full month of October and it was decided to cut this down to two weeks at the last session of the legislature. A bill was passed along these lines but after the legislators had gone it was discovered that through a misprint the season had been extended for two additional weeks, into November. The present amendment remedies this error and conforms to the original intention last year of cutting the season down to two weeks.

BRANT NEWS

The Brant U.F.A. old-time dance on March 17 was a very successful affair. Some of the numbers on the program were misleading to the uninitiated. No. 5 being a fox trot, on the program read 2.40 wheat. A few of the others were "Peep o' Day"—one step; "Butter and Eggs"—quadrille; "Summer Fallow"—waltz; "Alfalfa"—two step; "Manhattan Straw"—military schottische; "Wheat 45 bushels per"—firemen's quadrille; "Fall Rye"—ladies' choice polka; "To the Hay"—home waltz. The Marquis orchestra furnished the music.

Major-General Leonard Wood looks like the possible candidate for the Republican party in the next presidential elections in the United States.

SHIPPING NOTES

Harry Vickery, of Mazeppa, had a load of cattle shipped to Calgary last week.

The Vulcan Co-Operative Company bought and shipped a load of hogs to Calgary last week.

Two loads of cattle were shipped by R. E. Hanks from Brant to Calgary last week.

A car of cattle was shipped from Aldersyde last week to Sheppard, Alberta, and two more cars were shipped to Calgary by M. Long.

N. G. Milligan, of Blackie, had two loads of stock billed out to Stettler last week.

J. Miller loaded a car of cattle at Aldersyde last week for shipment to Calgary.

Martin Armstrong unloaded three cars of cattle at Nanton last week. He bought them at Standard.

A load of cattle was shipped from High River last week by Mr. Harper to Hatton.

Miss Shakerley's shire stallions were detained in town on Saturday for about six hours, but they went on north about six o'clock. Mr. Dayment and Bert Sheppard were in charge.

R. L. Bulyea had a load of horses consigned from Blackie to Calgary last week.

All aliens interned in Canada and not already repatriated have been released.

With the disappearance of snow, our streets, front and back yards of householders present a woeful appearance. The winter's accumulation of ashes, etc., is an eye sore and we hope a clean-up day will be inaugurated early this season, for present conditions gets on one's nerves.

FOR SALE—Pure bred S. C. W. Leghorn eggs for hatching. \$1.50 for 13. A. K. Kitto, phone 205.

M256

POSITION—on Farm by youth, age 19 years, some experience. Moderate wages. Apply Advocate.

To the Ratepayers of the Municipal District of Marquis, No. 157.

A BRIEF SYNOPSIS OF THE TAX RECOVERY ACT

Section 4

Unless the arrears of taxes on any land are paid before the first day of July in each year, beginning with the year 1920, and unless the lands come under the provision of "The Act Respecting the Arrears of Taxes," or an extension of time for payment is in some other way legally provided for, and in both such cases, unless the terms of the extension are duly carried out, such land shall be liable to be sold for all arrears, including the penalties, if any, accruing on or before the said first day of July, together with the costs of advertising and sale.

Remember

Your land can be sold for arrears of taxes as per the above section. The purchaser pays the amount of taxes with costs on the day of sale, and you will have one year from that date to redeem your land, the penalties and costs added in this procedure, amount to a considerable sum, and the council has adopted this method of notifying you of this act so that these costs may be avoided by the payment of your taxes in arrears before July 1, 1920.

R. E. HOUSE,

Sec'y-Treas. of the Municipal District of Marquis.

MARKET EXAMINER'S WEEKLY REPORT

Cattle

Good, fat steers and cows are at least half a dollar higher on the Calgary market than they were a week ago; cows have been showing a steady advance and yesterday, with the right kind of steers on hand the buyers boosted the prices about half a dollar. Choice steers \$12.25 to \$13.40; good butchers \$10.50 to \$12. Choice cows \$10.50 to \$11.65; good butchers \$9 to \$10.25. The few cattle below these grades are scarce and it is just as well for nobody wants them. There are no choice heifers offered. Bulls are worth from \$8.25 down; choice light veal calves will bring up to \$12, but scarce. Stockers and feeders not in brisk demand; feeders worth from \$10 down.

Hogs

Constantly increasing demand for hogs has been in evidence in the Calgary yards during the week and the first sales which were made on Wednesday were at \$20.85 and this was advanced to \$21 on Thursday's receipts. Receipts all week have been light; sales on Saturday at \$21.25 to \$21.35.

Horses

Good demand for heavy horses and few offered. Calgary horse sales during past week rather slow and most of the teams from \$300 to \$400. Few teams of choice, heavy, good quality sold, one pair making \$575. Horses selling higher at country auctions than at city sales.

Produce

Eggs have been fluctuating owing to weather conditions, but indications point to a price from \$11.40 to \$12 or opening up next week. Butter market firm and dairy receipts light; choice dairy in demand. Creameries are reporting inquiries from outside points and market prospects are good. Potato market very bullish and sellers are asking on commercial stock, from \$70 up to \$90 for seed potatoes.

Hay

Bad weather has caused even a more serious situation as regards hay than was reported a week ago. It is hard to set a price on hay, as recent sales have been very high on such stock as could be moved. Green feed is selling higher and stacked stuff will bring from \$28 down on cars at shipping point.

Hides

Market conditions still very unfavorable and prices on beef hides lower; frozen hides from 13c to 14c; green salted butcher hides, 15c to 16c; calfskins, 28c to 30c. Poor quality, grubby hides coming on now and outlook not at all favorable for better prices.

LOMA NEWS

Just a few buds from Cottonwood Grove S. D., once famed for its social environments and literary talent, and no less famous for its agricultural and live stock of all kinds, save the goat; also in its last year production of the so-called frozen green feed.

And what this leap year will add to its laurels can best be told by one who participated in the light fantastic at the school house last Friday night.

Meantime Nifty Bill will give a synopsis of events in and around the snowy little hamlet.

Truly delighted to hear through the Loma correspondent that Mr. Smith purchased a farm near Loma. Glad to see you Bob, we will hereafter have the trail broken to Vulcan which has been a long-felt want to people living on the back line, and more especially the mail carrier who we eagerly look for twice weekly, but only see him try wintery.

We are sorry to chronicle the departure of Mr. Crawford from our midst. Jack was a good checker player, in fact, champion of the south line.

The straw bundle hauler to Ensign met with bad luck. Well, we fancy there was no more tranquil mind with the driver by the leap he made to get out of the way of the load as it was going over.

Dan Beaton had a load of fat hogs to Vulcan last week.

Loma people want a pound and indications point favorably to the early establishment of one.

Fred Burgess says the most wonderful veterinarian of the present age resides near Loma. He performed what we term a miracle on two boys and didn't stop at that.

Fred is a good judge, yes, fully as good as Blake.

George Moore, an old-time resident of this district, passed through Loma with a bunch of horses last week en route to Hanna, where his North Horse ranch is located.

The Sunday blizzard was the worst storm of the winter, and it's to be hoped that no great loss of live stock occurred.

LEATHER

is too high a price for you to neglect your harness. Bring in your old

HARNESS

and let me repair and

OIL

them for you. Harness oil in bulk for sale. The best oil at the lowest price.
